# YEAR-ROUND COMFORT

When you choose EcoTemp heating and cooling equipment, it means your home comfort is backed by superior engineering and quality manufacturing so you can enjoy more important things. Each unit is 100% run tested, and we design our products to give you exceptional quality, energy efficiency and reliability. We deliver products that deliver home comfort you can enjoy year-round.

## WHAT IS A PACKAGED SYSTEM?

EcoTemp packaged all-in-one units are designed for heating and/or cooling comfort in one superior packaged product. The units stay enclosed outside or on roofs and come in a variety of combinations to deliver ultimate year-round comfort. The WPA4 is our packaged air conditioner, the WPH4 is our packaged heat pump, while the WPG4 is our packaged gas furnace/air conditioner combination unit.

## WHAT MATTERS IN A PACKAGED SYSTEM?

SEER2 (Seasonal Energy Efficiency Ratio) measures the cooling efficiency of air conditioners and heat pumps during an average cooling season.

EER2 (Energy Efficiency Ratio) measures cooling efficiency during a set temperature (95° F). AFUE (Annual Fuel Utilization Efficiency) measures the heating efficiency of a gas furnace. For each of these ratings, the higher the number, the greater the potential for energy savings. Performance Series packaged air conditioners and packaged gas furnace/air conditioners offer 13.4 SEER2/10.3 EER2 cooling. The packaged gas furnace/air conditioner also reaches 81% AFUE heating.

Enjoy year-round comfort with the efficient PGD4 packaged gas furnace/electric air conditioner. It delivers reliable temperatures every season, from the hottest days to the coldest nights of the year. The multi-speed blower motor helps improve temperature control and dehumidification for enhanced comfort.

Hot and humid weather is no match for our efficient PAD4 packaged air conditioner that features a multi-speed blower motor that quietly delivers better home cooling comfort and helps keep humidity in check.

Built for lasting durability with pre-painted steel cabinets and dense wire coil guards to protect the outdoor coil. The evaporator coil is made of quality aluminum for longer lasting corrosion resistance.

Rest easy with a 1 year unit replacement, plus 10 year parts and compressor limited warranty\*

\*10 year warranty requires timely registration and applies to the original homeowner. Visit [ecotempac.com](http://ecotempac.com) for complete details.

All systems tested and listed by the appropriate agencies.

ISO 9001: 2015 certified
